

PULSE R

An inclusive XR and AI-driven health solution that seamlessly integrates
personalized health tips.

PROBLEM STATEMENT

In Nigeria, diverse healthcare challenges persist due to a fragmented system, limited resources, and geographical disparities.

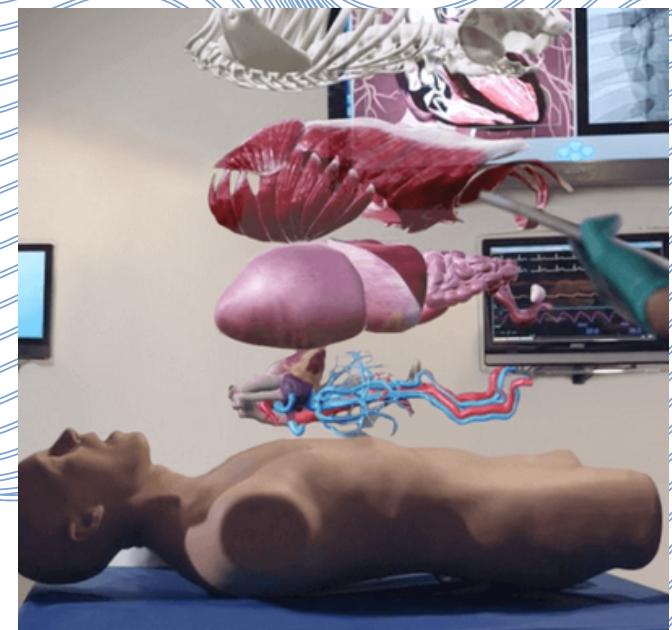

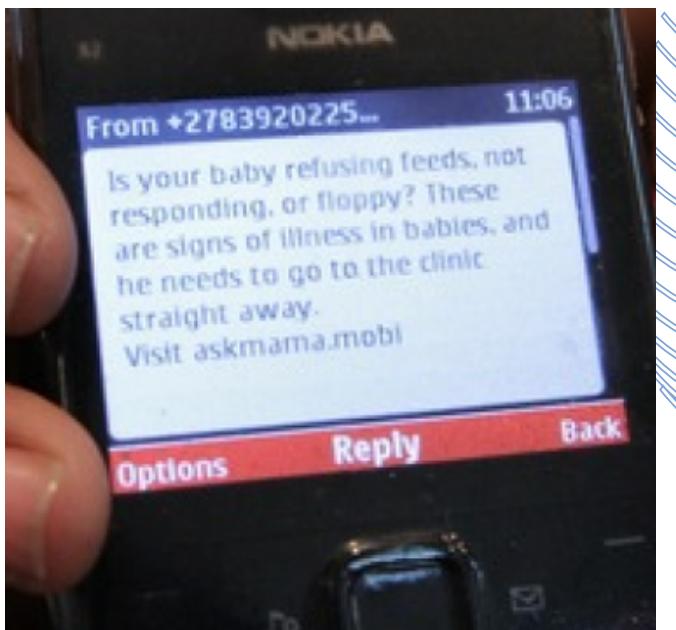

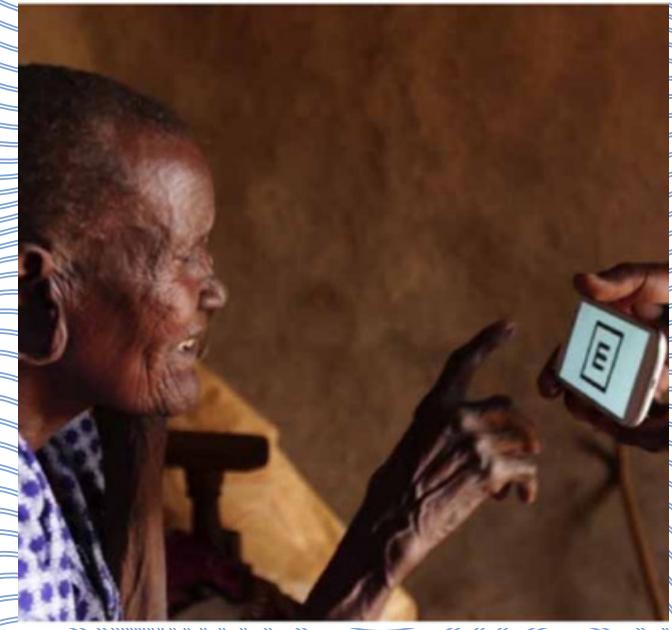

Urban areas grapple with fast-paced lifestyles and rising healthcare costs, hindering access to personalized advice.

Rural communities face even greater struggles in obtaining basic healthcare information, exacerbated by cultural stigma and limited mental health support. The global health crisis has accentuated the need for innovative, remote solutions in a tech-savvy population.

SOLUTION

PULSER delivers personalized health tips through XR and AR, catering to all users. Culturally sensitive and inclusive, it bridges urban-rural healthcare gaps. With a focus on mental health, it addresses stigmas. Adapting to the global health crisis, PULSER empowers communities through tech-driven healthcare solutions.

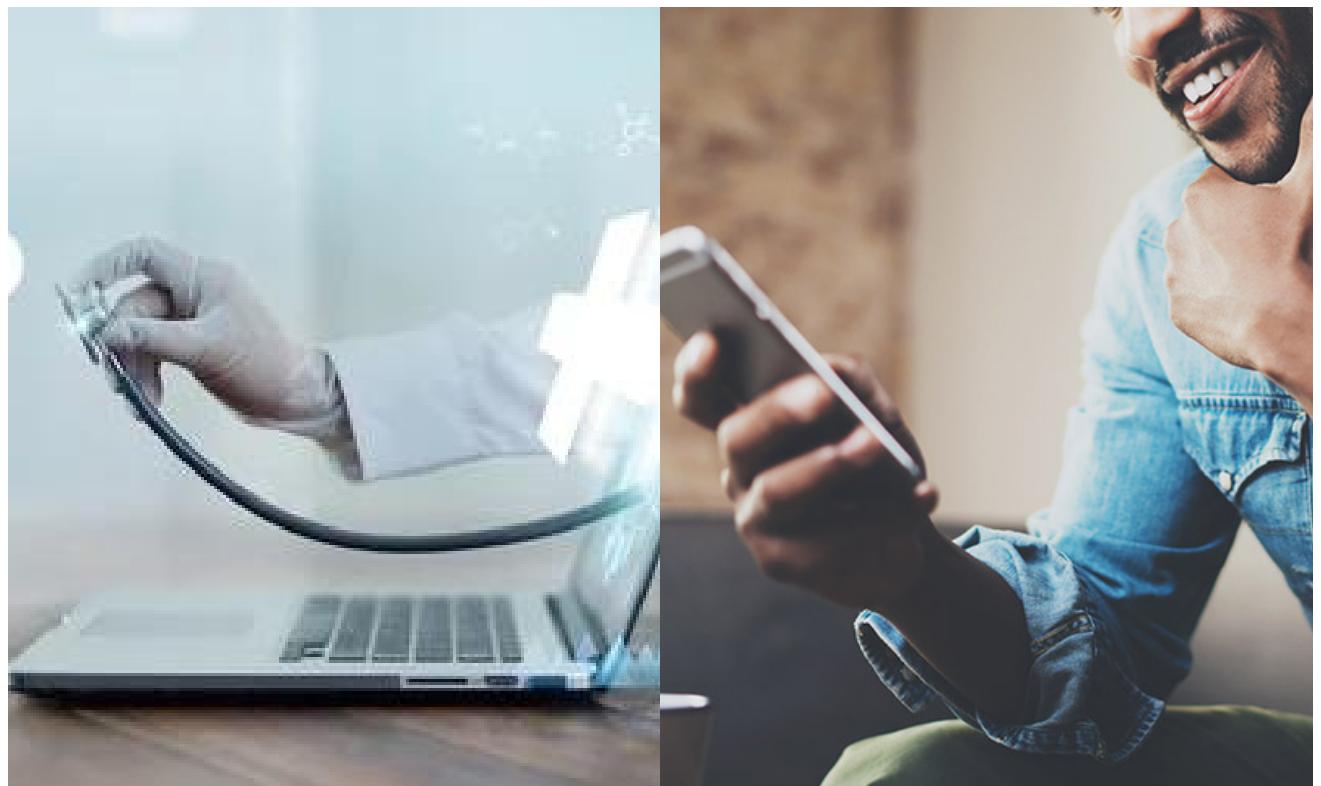

UNIQUE SELLING POINTS

PULSER stands out with its unique features. Imagine receiving health tips not just through your device but in your real-world environment, thanks to our AR integration.

Global Health and Wellness Market

MARKET SIZE

According to recent estimates, the global dermatology market is valued at USD 1.59 billion. The burgeoning market for health and wellness applications, coupled with the increasing demand for innovative XR solutions, positions PULSER at the forefront of this thriving industry.

TARGET AUDIENCE

Our primary target audience includes healthcare providers, online health platforms, and individuals seeking personalized health tips. PULSER is designed to meet the needs of both providers and end-users.

BUSINESS MODEL

PULSE R

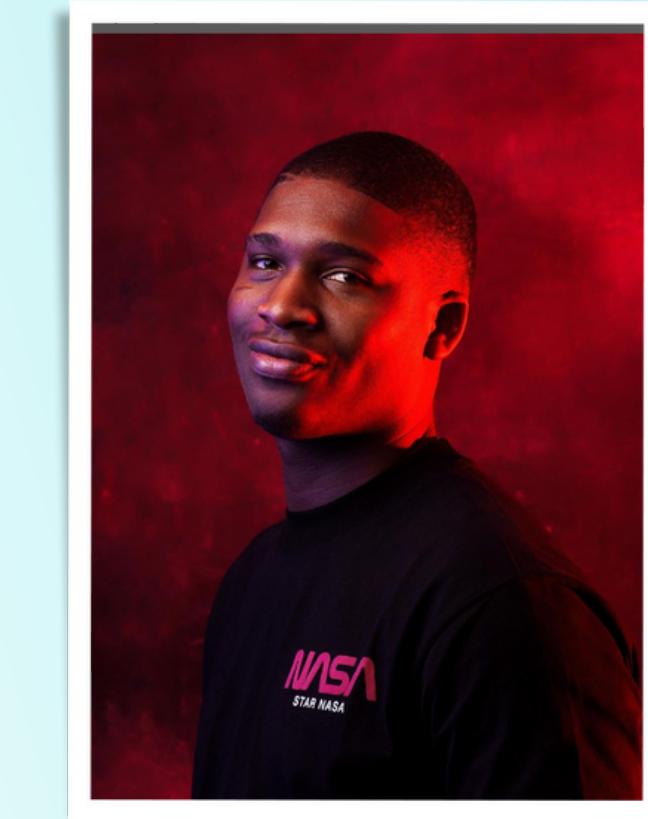

PULSE R operates on a service provider model. We're not standalone; we enhance existing healthcare services by collaborating with hospitals and online health applications.

FUTURE ROADMAP

As we envision the future, PULSER aims to seamlessly integrate into the fintech ecosystem, leveraging the power of AI, AR, and VR. By extending our technology, we aim to revolutionize financial wellness, providing users with immersive, AI-driven financial insights and solutions. PULSER's expansion into fintech aligns with our commitment to holistic wellbeing, encompassing both health and financial prosperity.
